

ADAPT HEALTH CARE SERVICES

For over 30 years, **ADAPT Community Network** (formerly United Cerebral Palsy of New York City) has specialized in meeting the complete health care needs of individuals living with disabilities. Our Patient Center Medical Home offers clinics with primary medical and dental care as well as specialty clinical and therapeutic services. **ADAPT's** patient-centered approach involves comprehensive, continuous, and well-coordinated care. We believe that personal health is essential to feeling good, reaching goals, and leading a happy, fulfilling life.

ADAPT provides health care expertise to individuals with a wide array of challenges, including cerebral palsy, intellectual and developmental disabilities, neurological impairment, epilepsy, Down syndrome, autism spectrum disorder, and spina bifida.

All **ADAPT** facilities have fully **ACCESSIBLE** entrances, doors, hallways, bathrooms, exam rooms, reception areas, adjustable height examination tables and wheel chair platform scales. The staff is very sensitive to each patient's individual needs.

ADAPT employs a staff of highly trained clinicians and assistants whose vast expertise ensures that we provide exceptional quality and patient sensitive health care. From the onset of a first visit, nurse case managers partner with individuals to determine their needs and navigate treatment options.

ADAPT'S SERVICES INCLUDE:

- Primary medical care
- Women's health care
- Dental care
- Podiatry
- Neurology
- Psychiatry
